would be held yesterday, was crowded when the prisoners were led in.

When seated in the courtroom, Pay, for the first time since his arrival in the early morning, pecketed his hand-kerciief, and assumed an air of composure. Harris held his head down during the brief hearing. Both men were handcuffed, and were carefully guarded. They had been away from the jail less than half an hour when they were sent back. Neither Fay nor Harris accepted breakfast at the jail, each declaring he was not hungry; but Deputy Pinkley says Fay had a cup of coffee on the train, and Harris did not eat or drink after leaving New Nork.

Deputy Sheriff Sydnor searched the men as soon as they were admitted to his custody. Fay had \$164.55 scattered about his person, which was distributed through all of his pockets, while his sock contained a neat sum which he had stored away, probably anticipating a chance of escape. Harris had \$6.40, which was all in a west pocket. The prisoners did not like the idea of being jailed, and complained bitterly of being separated. The officers in charge will not tell what cells are occupied by the prisoners, nor will they allow anybody except the government men, officers and Attorney Smith, to have a glimpse at them.

One of Marshal Smithers's deputies will be constantly on duty at the jall, and Sheriff Kemp has been instructed by the government to have two extra men on duty until Fay and Harris have been convicted and sent to Atlanta. Constable George W. Moughon and Myer S. Angle have been detailed for this special duty. The county officers do not look for any trouble.

The route taken by the automobiles, after the prisoners entered them at the Byrd Street Station, was to Seventh Street, thence to Main, and down Main to the jail. The trip was made in less than five minutes, and before any

[Special to The Times-Dispatch.]
Farmville, Va., April 8.—The Episcopalians of Farmville are maturing plans for the enlargement of their church building. It is alrendy one of the most beautiful church edifices in the town, but not large enough for the increasing numbers who worship there.

Early Vegetables Also Suffer. Some Sections Do Not

Suffer.

[Special to The Times-Dispatch.]
Spotsylvania, Va., April 8.—The raw, high winds of yesterday were succeeded this morning by a heavy frost, which it is feared has killed a great deal of the fruit crop and also the more sensitive early vegetables. Farmers are well advanced with their work, and the prospect of a favorable farming season gives new impetus to that feature of husbandry.

No Harm to Fruit.

[Special to The Times-Dispatch.]
Crozet, Va., April 8.—No harm was
done to fruits in this section last
night. The prospects for fruits continue most promising. High winds
kept off frost to-day. The weather
has become warmer. Strawberries will
be ripe by the end of the month.

There must be some reason for Paul Gilmore's appearing as a star. The men who handle these matters are not influenced by any feeling of personal liking; they look to results in the box office, and that Gilmore heads a company year after year is a proof that he is a money-getter. But why he should be is beyond even my imagination. To me he is ridiculous, with his mean-ingless facial convulsions and absurd body bendings, his uncalled for repetitions and ejaculations. I wrote down one line as nearly as I could. It sounded something like this, "Now who, who came with, with you, hum, eh, what, thit?" So far as I can recall, after some years of theatre-goins, he leaves undone everything that a sood actor should do and does everything that a good actor should do and does everything that a good actor should do and does everything that a good actor should do and does everything that a good actor should do and does everything that a sood actor should many there was a little appliause from some of those who composed the small andience at the Academy of Music last night, when he presented "The Mummy and the Humming Bird," the play in which John Drew, Lionel Barrymore's masterly work as the organ grinder that attracted mest attention, but as it was played last night only the acting of Jules Unger, in Barrymore's part saved it from utter absurdity.
